Phenomenal! Love it! I sent it to DOT and will let you know when they give me an estimate for when they will be replaced.

Dear Taylor:

As discussed, we have cleaned (removed graffiti and stickers, and substantial defacement) from traffic signs throughout the BID to improve safety in the area. Below is a list of signs we'd like LADOT to take a look at repairing or replacing. If there are any they are unable to address, please let us know so we can try to figure out how to address them. Thanks!

Warmest regards,
Tara

Hi Tara,

Good clarification. Yes, saturated would mean too covered in stickers and/or graffiti.

I grouped the signs by location so the "issue" would apply to the whole group. The edited version below and attached makes that more clear.

Please let me know if you'd like to see any other edits before we pass this off to the City and DoT. Thanks!

And 2nd question...for those signs with no issue next to them...what is the issue? Also saturated/same as above?

By "saturated" you mean covered in so much stuff it's impractical to remove/clean?

Good Morning!

Paul was able to compile the attached list of signs that are saturated and/or loose in the district. I'm including the list below as well in case you'd like to forward this email directly.

Please let us know if you have any questions.

Thanks!
